

Brasil Plural Securities, LLC
Form CRS (Customer Relationship Summary)
June 25, 2020

Item 1: Introduction

Brasil Plural Securities, LLC (“we”, “Brasil Plural” or “the Broker-Dealer”) is registered with the Securities and Exchange Commission (“SEC”) as a broker-dealer and is a member of the Financial Industry Regulatory Authority (FINRA), National Futures Association (NFA) and the Securities Investor Protection Corporation (SIPC). Broker and investment advisory services and fees differ and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at Investor.gov/CRS, which also provides education materials about broker-dealers, investment advisors, and investing.

Item 2: Relationships and Services

What investment services and advice can you provide me? Our brokerage services include buying and selling securities, including but not limited to equities, mutual funds, fixed income securities, structured notes/bonds, alternative investments, unregistered private investment funds and private placements. Our services also include the distribution of research to “U.S. institutional investors” and “major U.S. institutional investors” structured in compliance with SEC Rule 15a-6. We serve as an intermediary for foreign unaffiliated broker-dealers and Financial Brokerage Group, an unaffiliated broker-dealer in connection with the distribution of research reports to major U.S. institutional investors for purposes of effecting securities transactions in shares of issuers listed subject of such research reports. Services are offered through cash, margin and DVP/RVP accounts.

Securities recommendations and investment activity is monitored on a regular basis as part of our standard services and supervision/compliance program.

Brasil Plural generally requires a minimum account value of \$10,000 although lesser value accounts are permitted on a case-by-case basis.

You as a client make the ultimate decision regarding the purchase and sale of brokerage account investments.

For additional information, please see copy of the Firm’s Regulation Best Interest Disclosures, and other applicable documents.

Conversation Starters (Ask your financial professional):

- **Given my financial situation, should I choose an investment advisory service?**
- **Given my financial situation, Should I choose a brokerage service? Should I choose both types of services? Why or why not?**
- **How will you choose investments to recommend to me?**
- **What is your relevant experience, including your licenses, education, and other qualifications?**
- **What do these qualifications mean?**

Item 3: Fees, Costs, Conflicts and Standard of Conduct

What fees will I pay?

Brasil Plural assesses commission charges, mark ups, and mark downs on each transaction and depending on the complexity, product type, and amount invested in such security; and not on the value of your account.

Brasil Plural also assesses yearly minimum account maintenance fees, wire fees amongst other administrative fees. Please refer to our *Schedule of Fees*. In addition, our custodian will charge custodian fees, settlement fees, document delivery fees, product level fees, confirmation and statement production, paper surcharge, and other fees. Not all fees will apply to you as a client and other firms could offer brokerage services at lower costs.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any materialized return or gain/appreciation (i.e. amount of money you make on your investments over time). Please make sure you understand what fees and costs you are paying.

We must act in your best interest and not place our interests ahead of yours, but you will be charged more when there are more trades in your account, therefore the firm and your account executive has an incentive to encourage you to trade on a frequent basis. This is a conflict of interest which we mitigate via additional disclosures as well as the Firm's supervision and compliance program which monitors customer account activity and fees/commissions on a periodic basis.

Conversation Starters (Ask your financial professional):

- **Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we provide you with a recommendation, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they affect the recommendations we provide you. Here are some examples to help you understand what this means:

- Third-party payments may be based on sales of investment products thus incentivizing us to recommend you buy and sell investments.
- Revenue sharing, such as when we or our affiliate receives selling group compensation.
- Trail Compensation is ongoing compensation from product sponsors typically paid from the assets of an investment product based on an annual percentage of invested assets and varies by product. We therefore have an incentive to recommend products that pay higher "trails."

For additional information, please see Brasil Plural's Regulation Best Interest Disclosure and your product prospectus.

Conversation Starters (Ask your financial professional):

- **How might your conflicts of interest affect me, and how will you address them?**

How do your financial professionals make money? Brasil Plural's financial professionals receive cash compensation in the manner of commissions from transactional business and advisory fees based on the assets they manage. They are also compensated via Mutual Funds trailers. The Firm also can receive non-cash compensation from mutual fund companies in the form of training and seminars, this non-cash compensation can create conflicts of interest which we address by maintaining policies and procedures, a Code of Ethics and supervision of our financial advisors and Financial Professionals. Our Representatives could also get an increased payout based on higher production. This represents a conflict of interest since the more commissions they generate the more they earn. Our representatives do not receive varying compensation based on the type of products they sell although certain products pay ongoing compensation (trailers); therefore, Financial professionals are therefore incentivized to recommend products that have higher fees and/or ongoing payments.
